

VINYLUX™ WEEKLY TOP COAT

WHAT IT IS

A Top Coat with ProLight Technology.

WHAT IT DOES

- Creates an outer shield with time-enhanced durability that protects Vinylux Weekly Polish from scratching, denting, chipping and dulling for up to a week of wear.
- Activates cross-linking polymerization which increases durability when exposed to natural light.
- Dries faster for out-the-door service.

WHY YOU NEED IT

- For week long wear when used with Vinylux Color.
- The final layer that completes the Vinylux Polish System.
- To protect Vinylux Weekly Polish and ensure week long wear.
- To provide a high-shine layer that resists scratches and dents.

DIRECTIONS FOR USE

- Must be used as a system: Color = adhesion + Top Coat = Time-enhanced durability.
- Perform P.E.P to ensure the nail is thoroughly cleansed and prepared.
- Apply two thin coats of Vinylux Weekly Polish
- Finish with one coat of Vinylux Weekly Top Coat.
