

# JimmyGel Removal

**Aim of the treatment:** To safely and gently remove all product from the natural nails.

**Treatment Time:** 20-30 minutes

**Preparation:** Prepare work area with an **LEpro Big Wipe** and all essential tools and products required for service to be performed.

## PRODUCTS REQUIRED

LE Zippy E-File  
Speedy Z-Bit  
Favorite LE Nail File  
LE Foamie  
LEpro Remover  
Cotton Balls  
Foil wraps  
LEpro Cuticle Pusher  
LEpro Cleansing Wipes  
LE Duster Brush  
LEpro Cuticle Oil

## Step-By-Step Procedure

**STEP 1:** Using the **LE Zippy E-File** and **Z-Bits** or your favorite **LEpro** nail file, shorten nails, remove previous decoration gels and remove as much product as possible without filing on the natural nails of one hand. The less remaining **JimmyGel** on the nail, the faster the soak time. It is also crucial to file through any hard gel on top of the **JimmyGel** allowing the acetone to come in contact with the soakable **JimmyGel**.

**STEP 2:** Saturate a cotton ball with **LEpro Remover**, place on nail and wrap with foil, repeating on each nail of the first hand.

**STEP 3:** Repeat **Step 1 and Step 2** on second hand.

**STEP 4:** After 15-20 minutes, check the status of product removal, beginning with the first nail wrapped. Gentle filing can be done to speed up the removal process. If product remains, make sure there is enough **LEpro Remover** on the cotton ball and re-wrap the nail. Repeat on each nail until product is fully removed.

**STEP 5:** Shape and smooth the free edge of each nail with the Lexy 220 grit file and use the **LE Foamie** to gently smooth the nail surface.

**STEP 6:** Massage 1 drop of **LEpro Cuticle Oil** into each cuticle.

**(Add-on option)** Apply a nickel size amount of **Q&Lu Bamboo Lotion**. Massage hands and arms. Massage can be extended by adding 1 pump of **Q&Lu Spa Oil** to the **Q&Lu Bamboo Lotion**.

## Recommended Retail Products

LEPRO CUTICLE OIL- keeps nails and cuticles moisturized

Q&LU BAMBOO LOTION- hydrates and moisturizes skin.

Q&LU SPA OIL- great after bath or shower to soften skin.

## TIPS:

The less remaining JimmyGel on the nail, the faster the soak time.

Use 100% acetone or LEpro Remover to ensure the fastest soak time.

We recommend using cotton balls soaked in acetone wrapped in foil over gel polish removal clips, as removal clips can apply too much pressure to the cotton ball and squeeze out acetone.
